Experience

Quantum's foundations lie in kitchen manufacturing knowledge and experience. In 1975, the first cabinet was built, and from there, Quantum was born. These bespoke kitchens have been cultivated by Quantum's highly respected CEO who grew up around the business, and the ever-expanding team.

Every Quantum kitchen is made to order, to ensure you receive durable, purpose-built cabinets. Each cabinet is crafted using a combination of state-of-the-art machinery and classic workmanship, resulting in both precision-built kitchens and exceptional quality. Quantum cabinets are all hand-assembled and undergo rigorous quality checks before leaving the premises.

Reliability

Each Quantum kitchen comes with a full 25-year guarantee on doors, drawers, cabinets and hinges. With coverage such as this, you're left with peace of mind that your kitchen is not only built to last, it is guaranteed to last.

Responsibility

Conscious of the environmental impact manufacturing can generate, Quantum endeavours to use only wood materials sourced from well-maintained, sustainable forestry. Additionally, all wood waste created during the production of your kitchen is recycled as a source of energy, heating Quantum's factory and offices, consequently reducing our carbon footprint.

The Pleasure of Colour

Maximalism exudes joy and warmth, achieved by layering colours, patterns and textures to generate an enigmatic space. The deep shade of Matt Copse Green with florals and gold flourishes creates an inviting, warm ambience. If you've got children or dogs, maximalism is much more forgiving.

Linden kitchens, with their wide range of colours and effects, can create a multitude of looks, so no matter the kitchen style, this collection of doors is versatile enough to accommodate for any design.

With open shelving and cabinetry specifically set aside for the bar area, this design is an elegant addition. However, there are more ways to incorporate a bar into your home. So, no matter the style or layout of your kitchen or living space, a design can be created to suit you.

Design Tip

Your kitchen doesn't have to be confined to just one room. Every home is unique, and no matter your space or your needs, you can create an individual design perfect for your house. If your traditional kitchen space is too small, and you have room to accommodate, you can prioritise your kitchen space and create a utility or practical pantry room for items you can't or do not want on display in your kitchen.

To continue along this interior design trend, patterned worktops and open shelving are ideal for homes brimming with personality.

A Luxe Ambience

When rich colours and textures are combined, it results in a luxurious finish. Woodgrain or textured doors combined with brushed brass handles and marble worksurfaces are a perfect blend that creates an instantaneously plush feel. Splashes of colour on walls, or bespoke, colour-matched doors in shades like the Eat Room Red, help to create an exquisite design.
